A LA CARTE

TO BEGIN OUR JOURNEY

A NOTE FROM THE PHOTOGRAPHER

Your photography journey begins by planning, dreaming and sharing ideas to find out

how do you envision these photos in time?

Being with you in this journey, **DOCUMENTING THIS UNIQUE STAGE OF YOUR LIFE**, is a huge honour for me and here we are at the start point. These photographs, simple daily moments of your life, soon become memories of love, laughter and connection between you.

GoLriz

Life is all about Memories

You want moments like these to be seen around your home, dearly remembered and deeply engraved in everyone's memory.

The laughter and jokes bring back happy times, the cuddles and kisses remind your children they're loved and cared... Having your everyday memories, the ones you create for your children, preserved in prints and family albums mean so much to your family.

HOW IT WORKS?

The first step to your photography journey begins by planning, allowing me to get to know your family as well as your vision from the shoot and to understand what you have in mind.

Planning starts with talking about the moments that matter the most to you, those unique family habits

that make everyone giggle, and the family bonds and emotions that are unique to this stage of life...

We will also discuss what to wear, suitable colours, your home design and the style you prefer. Working with the end in mind, how do you envision these photos to be displayed in time to come? Would you prefer a collection of family albums every year, a mini home gallery, or sets of printed photographs?

Photography Experience is basically your family day out or at home.

Having planned for the day and the activities, all you need to do now is to enjoy being together, whether it's indoors or outdoors.

During the shoot, I'd love you to be relaxed and let moments happen as they come. You don't have to worry about the weather, the children misbehaving, or even how you look in front of the camera. My goal is for you to enjoy your time so leave everything to me. Rest assured that I will be capturing every precious moment as your story unfolds itself.

Design your everyday family moments into timeless portraits,

showcasing your connection and uniqueness through elegantly designed works of art. The actual prints, frames and albums are those to last a lifetime, for now to see and laugh at, for future to warm your hearts. to be cherished as a treasured family heirloom.

your
PHOTOGRAPHY SESSION

Once your memories are professionally captured,
The archival prints, keepsake albums and
exquisitely selected wall arts are those
to last a life-long,

Holding those treasured moments tight
the moments later on will be called:

Life

We capture the emotion, love and joy in your heart and mind.

You are the one writing the lines,

Leave *capturing them* to me while

Your Story

Unfolds...

NEWBORN

& Family lifestyle photography

A newborn signifies the beginning of a new stage of life worth documenting. Photographs are magical. They bring you back to the first experiences, the first touch, first smell, first smile, first time watching your baby sleep, and above all, the first time faced with your new role - being a Mother or Father.

Why preserve these moments?

Time passes so fast. Not only are our minds constantly fills with new memories. life gets busier with never-ending plans. From time to time, there is a need to return to those beginnings, to relive the joyful memories of why we chose to be a parent.

Newborn photography session takes around 2-4 hours. The session date depends on your actual date of delivery. We will plan the shoot to be flexible and relaxed, with ample time for your baby to fall asleep, for any unpredictable circumstances and also for any feeding if the need arises.

FAMILY LIFESTYLE

Photography Experience

Each memorable stage of parenthood takes on a storyline of its own with new meaning and discovery, new story, new findings, and new characteristics. However, before you know it, each chapter soon vanishes into the next *in the blink of an eye!*

Photographing every stage of your life and documenting your family growth at every step is so important. These photographs will turn into family heirlooms and will be dearly treasured for decades by allowing you to go back in time and relive those forgotten feelings over and over again.

Family Lifestyle sessions aim to capture one day of your family life, taking ordinary moments at home and the outdoors and transforming them into something beautiful. We usually start early in the morning, taking advantage of the soft morning light by getting everyone involved in some fun activities at home. Following a short break, we will then head for a local park to capture action shots of your family!

The duration of family sessions varies. For the outdoor sessions we aim for 1-2 hours while for the lifestyle family sessions, depending on how your family feels, the shoot could last till lunch time or may even end in the afternoon."

We won't miss a moment!

LIFESTYLE SESSION

£355 WEEKENDS - £295 WEEKDAYS

2-4 hours photography experience at home and outdoors

Documenting one day of your family time

OUTDOOR SESSION

£295 WEEKENDS - £255 WEEKDAYS

your INVESTMENT

For your investment in portraiture, products, wall arts and prints, two options will be offered based on your preferences and vision for your session:

- CREATE *Your* COLLECTION

A personalised package designed by you

By selecting archival prints, wall arts and keepsake albums, you are investing in the quality and durability of your photographs, which are meant to be seen every day, smiled at, and treasured as part of your family legacy.

- A LA CARTE

Only includes digital files.

Note that digital files are non-archival compared to archival prints which are superior in terms of quality and durability.

CREATE *Your* COLLECTION

A simple two-step process to help you decide how you want your photos to be seen - on the walls of your home to be smiled at every day, or in a family album to reminisce the moments every now and then. Either way, you get to personalise the process based on your preference, vision and style. I will be present to help you put your thoughts together and create your most treasured family heirloom.

1. *Choose your* ALBUMS AND WALL ARTS

ALBUMS	FROM £695

A LA CARTE

10 DIGITAL PHOTOGRAPHS £555

35 DIGITAL PHOTOGRAPHS £795

A La Carte investment could be an option if you may not wish to have your photos printed for the time being.

Why create your own collection provides more value?

While deciding about a variety of frame sizes and colors seems to be an overwhelming process, my goal is to be there with you from beginning to the end, create art from your everyday moments and leave you with no concern of what and how to have those digital files printed and displayed. Create a Collection is designed to guide you through this process, should you have the end in mind and interested in printed artworks.

Our journey begins on our first talk, going through more details and sharing ideas, then follows by the first time I meet your family.

And that is only the beginning.. My aim is to photograph your family through different stages of life.. See you grow from your first newborn to a family of 5...6... Capture your children grow up into teenagers, and in every stage create new tangible memories for you and for them to keep and to remember... So let's begin with the end result in mind... Let's begin the conversation...
